Description

on 1.9.cvs

See it in here: <http://www.moviments.net/valldelcorb>

Try changing language as anonymous from default (catalan) to Spanish, for instance. a blank page is shown.

If you do the same as registered, the interface is changed to Spanish, as expected, and as it happened always with previous versions of Tiki.
(That happened with empty wiki homepage).

However, I tried today (homepage had some articles through article plugin) as registered (user with admin rights), from this page:

<http://www.moviments.net/valldelcorb/tiki-index.php>

and I got:

Warning: preg_replace() function.preg-replace: Unknown modifier 'd' in /home/httpd/tiki19/tiki-switch_lang.php on line 47

Warning: Cannot modify header information - headers already sent by (output started at /home/httpd/tiki19/tiki-switch_lang.php:47) in /home/httpd/tiki19/tiki-switch_lang.php on line 70

plus a blank page.
