Description

I have encountered many problems with this feature when activating on dev.tikiwiki.org

A- The site becomes very slow...

B- **TaskModuleTest** page is almost totally blank.

C- Should there not be a feature setting for all of this?

Solution

A - very subjective and no details at all

B - which page? can't find it!

C - yes, make it optional! - if it's still missing, please open a new dev.tw.o-item

CLOSED!
