### Description

maybe affects BRANCH-1-9 as well.

Below is a bounce message when Tiki sends notification emails from tikiwiki.org (watch feature). I altered some the emails & domain names.

---

Attention: info at tikiwiki.org

A policy-violation was found in an Email message you sent.  
This Email scanner intercepted it and stopped the entire message reaching its destination.

The policy-violation was reported to be:

Disallowed characters found in MIME headers

Please contact your IT support personnel with any queries regarding this policy.

Your message was sent with the following envelope:

MAIL FROM: info at tikiwiki.org  
RCPT TO: xxxxxxxx at xxxxx.com

... and with the following headers:

---

MAILFROM: info at tikiwiki.org  
RCPTTO: xxxxxxxx at xxxxx.com

## Comments

Marc Laporte 06 May 07 23:49 GMT-0000

Some headers are appearing in the body of messages sent to gmail. Another hint that there is a problem with "New user registration at tikiwiki.org" email notifications.
