Related-to
- ● CSRF False positives
- ● Potential cross-site request forgery (CSRF) detected. Operation blocked. Required headers are missing.
- ● "The following mandatory fields are missing: Category" after anti-CSRF prompt
- ● Voting in a poll gives CSRF warning.

Description
Based on my research, it looks like this feature was supposed to be removed. See
http://dev.tikiwiki.org/tiki-index.php?page=Hello+World&highlight=CSRF

dthacker

Solution
Remove the option from the login configuration

Turn on "Require confirmation if possible CSRF detected." and then go into e.g. Admin->Look&Feel and try to change something.

You will be requested to confirm your action, then to confirm your action, then to confirm your action, then to confirm your action and so on....
