Description
Right now, it's a group permission (tiki_p_batch_upload_files) but if I give tiki_p_admin_file_galleries, it included tiki_p_batch_upload_files, which is not always what I want. (It adds clutter to the interface, when uploading a file)

It should be an option here:
tiki-admin.php?page=fgal

And maybe add a check to see if this is supported by the server (if easy)
