Description

It is now possible to comment an image gallery. However, it would be more useful to be able to comment an individual image.

For example, to identify who are the people on the photo.

There are two very nice PHP-based open source galleries. <http://coppermine-gallery.net/> and <http://gallery.menalto.com/>. You could take either one as a model for improving the image functions in TikiWiki. I have have to say that after using the other two I'm a bit spoiled 😊

As per Tiki23, Image Gallery feature has been removed from Tiki : <https://doc.tiki.org/Image-Gallery>
