Description
As noted above, quicklinks toolbar does not appear.
follows is convo with mlpvolt regarding issue and attempts to fix:

is this a new install (clean DB?)
> >>
> >> this sounds like a configuration issue - have you defined some
> >> categories (in the admin menu?)
> >> feel free to email me a screenshot.
> >>
> >> Mlpvolt

It is a new install...clean db..
> > I followed the instructions exactly as given for a windows desktop install.
> > Brand new Easy PHP, etc....
> > Yes, I have defined some categories....(8 hours of playing around)
> > Tried themes, changed title bars, etc..

Is there any loss of functionality?
> > can you categorize the page?
> > and this only appears when you edit, right?
> >
> > MLP

Everything else seems to work quite well.
> I can edit the page with code, but no quicklinks..so it's not as easy as it might be.

> and yes, only appears with the edit function.
> I have no idea what's going on and my efforts this morning have just produced more of the same.
> Love tikiwiki and would really like to get this resolved so we can get it up for our group.

OK try deactivating categories in admin>features and see what happens.
> Also try switching themes in admin general. (i don't recognize that theme)
> > MLP

That got rid of the error message and I can live with categories turned off.
Still no quicklinks on the edit page though..
Feels like progress...LOL oh...and I've tried just about every theme and it makes absolutely no difference.
