### Description

To speedup this site, delete any login which:

- 1- has not voted in tracker ratings
- 2- has not submitted, modified or commented a tracker item
- 3- no tracker item is submitted to them

In short, all logins which are not useful here at the moment. Logins will be recreated here at their next login via InterTiki anyway...

### Solution

In Tiki4: replace user dropdown lists with AJAX/jquery autocomplete enabled input fields if there are more than N users.

### Importance

4

This apparently is because the drop down menus of users list every user, pages like user admin grinds to a halt with 10,000 users.

The plan is to replace them with AJAX/jQuery autocomplete enabled input fields if there are more than N users. (Same for groups?)
