Description

Using 1.9.7, I think.

This page

<http://www.moviments.net/precarios/Comisi%C3%B3n%20Carrera%20Investigadora>

is showing categorized objects (through the usage of Plugin Category) with old names (i.e.: "foro (forum): Carrear Investigadora"), even if the forum was renamed to "Carrera Investigadora".

As per Tiki23 I couldn't reproduce. Please retest with recent version of Tiki and create a ticket if you still have an issue.
