Description

While adding field Group as a group selector got following error (Tried again for a text field & same error):

Warning: mysql error: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'Group TEXT' at line 1 in query:

```
alter table tiki_trk_Groups add column Group TEXT
```

in /home/tikivam/public_html/cms/lib/tikidblib.php on line 134

Warning: Invalid argument supplied for foreach() in /home/tikivam/public_html/cms/lib/tikidblib.php on line 145

Then when list tracker items:

Notice: Undefined index: Group in

/home/tikivam/public_html/cms/lib/trackers/trkWithMirrorTablesLib.php on line 594

for each item.

Then when edit item:

Warning: mysql error: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'Group='yrc94' where `itemId`='18' at line 1 in query:

update tiki_trk_Groups set Group=? where `itemId`=?
in /home/tikivam/public_html/cms/lib/tikidb/lib.php on line 134

Checking DB: Group column was not created in table.

This is from a test site <http://tiki.vamason.org> while trying to recreate trackers as mirrors from <http://cms.vamason.org>. I installed lastbranch1.9 on 8/3 and copied the DB & ran 1.8-1.9 upgrade. Deleted old trackers, changed Tracker feature to use mirror tables. Emptied tracker tables using SQLyog before starting. Loaded data from CVS using SQLyog.
