Description

On IRC:
13.08.2007 03:03:11 nkoth_marclaporte: The reason why items don't appear in the tracker for page=cache is because those items have no rating, and the default sort mode as set in the admin...trackers is rating. It can't sort stuff with no rating so those are not shown.

Nelson is right on. See the 4 attached screenshots, in order.

1- Unrated_but_Categorized_tracker_item.jpg
2- Dev_Tracker_theme1.jpg
3- Rated_and_Categorized_tracker_item.jpg
4- Dev_Tracker_theme2.jpg

These were taken on 2007-08-13, with latest BRANCH-1-9 after Nelson Ko (nkoth)'s recent fix to templates/tiki-plugin_trackerlist.tpl

Possibly related to doc/devtools/cleanCatTrackers.php which Sylvie has been using to periodically clean trackers up.
null rating and 0 is not the same thing.

Can you please retest in currently supported Tiki versions (e.g. Tiki12, ...)? Willing to clear the list of valid bug reports on rating...

Is this still an issue? If so please update the ticket version information.

Bernard Sfez / Tiki Specialist 01 Nov 21 08:12 GMT-0000

It is quit hard to evaluate this ticket . Things have really changed since Tiki1.9, the screenshot on the ticket are not available, etc. Please retest with a modern version of Tiki and create a new ticket with your issue if it is still relevant.
