Description

Trying to test for this:
http://dev.tikiwiki.org/tiki-view_tracker_item.php?itemId=1312

I got, on doc.tikiwiki.org:

```
Warning: ob_start() [ref.outcontrol]: output handler 'ob_gzhandler' cannot be used after 'URL-Rewriter' in tiki-setup.php on line 1890
```

I had this error once. Have been unable to duplicate.
I don't remember which browser.

I am putting here just in case...

Easy to solve?
