Description

In the bottom bar of Tiki sites if activated there is some "debug" information. Notably:

[xx database queries used]

The SQL counter report is incorrect and reports higher number. Since this is making Tiki look bad for no good reason I am removing until it's fixed.

Please see:

http://sourceforge.net/mailarchive/message.php?msg_id=469E4D13.8010609%40gmail.com

Solution

Fixed for 3.0 in commit Revision: 13780

Importance

4
