Description
Using 1.10 cvs from mid september 2007. Using hec.css theme

At admin > login > Users Defaults, I've set

My Tiki
My pages V
My galleries
My messages V
My items V

Example of user page viewed by another user or anonymous:
http://intercanvis.net/tiki-user_information.php?userId=20

Issues:
1. Wiki pages ("PÃ©gines del wiki") are wrong: they are not from that user (confirmed, even if you cannot see history on pages on that site)
2. "My items" should show, at least, some items added by that user:
   - 2 on one tracker
   - and one on another tracker

Forum messages are shown ok.

Solution
fixed by sylvieg in 3.0 (around 9th January 2008, rev. 16219 or so.)
