Rating
★★★★★ (0) ❓

Description
Allow direct file placement in the file gallery upload folder and have it index the files/add them to the file gallery...similar to the photo gallery which simply index all files with an image extension (ie. jpg, gif, bmp) and displays them in the batch upload area, this feature needs to be integrated into the file gallery so you can add/ftp files into the file gallery stipulated upload folder and them show up in a file gallery.
