Description

Banners show as just an empty box when displayed. Images don't work, text doesn't work, nothing will get it to display anything but an empty box.

doesn't work either.

Solution

Tested with SVN from Apr 24, 2008. I was able to:

1. Create a new bannerzone
2. Create a new ad (using an image) assigned to the bannerzone
3. Display the banner in a module using

I was also able to create a text ad.

Make sure that you clear the cache after assigning or changing the module.
(ricks99)

Also tested successfully on Apr, 24, 2009-dthacker
