

For 4) You can set a list of emails to send to, alternatively for a more comprehensive solution, see <http://doc.tikiwiki.org/Groupmail>

For 1) I think there is no need to resend since the admin can validate by clicking the button. Forgot password feature can also be used.

but probably more to do still...

Xavier de Pedro 22 Apr 08 09:26 GMT-0000

Hey, very "common sense" based suggestion the ones I'm reading from you. Welcome to dev.tw.o "wishlist posters"-sub-community! 😊 (within the bigger TW Community)

Rick Sapir / Tiki for Smarties 01 Oct 09 18:13 GMT-0000

Tiki can already re-send the registration email by using the FORGOT PASSWORD feature.

To resend the registration/validation email:

1. Go to [tiki-remind_password.php](#)
2. Enter the username
3. Tiki will display a message indicating tha the user has not been verified and will resend the validation email.

Kimberly Fink 14 Jan 10 19:15 GMT-0000

Tested in 5, most of this functionality exists now. However when testing I discovered that that the

"Validate User" email does not seem to be working.

Marc Laporte 01 Feb 10 16:41 GMT-0000

Install latest Tiki 4.x from SVN

Apply "Web presence" profile

Add a New User and check "User must change password at first login."

User gets email, can click it but gets error when trying to set password
