Description
   You can get to help easily enough, but it's kind of hard to find the "wishlist" page.

Solution
   Add a link to the "Wishlist page to the admin interface. That when I think of something, I can add it
   quickly instead of waiting until I've forgotten what it is.

   DONE: added it to 4.x into the Admin...Connect panel

Do you mean a link in the tikiwiki application (ex.: in tiki-admin.php) to here?

Just a link to it from somewhere so that I zip some thing off and at least have it considered.
