Rating

★★★★★ (0) ?

Description

Using v10 Tarball from 5/1/08 and on a Wiki page have the following:

```
~~ ~np~ Missing or incorrect trackerId parameter for the plugin.
~~np~~
```

Displays the tracker fine and the sort defaults to LastModify.

Can click any field name and sort takes place just fine.

HOWEVER, selecting another field, even the same one to change the sort order, results in the error message:

"Template not registered"

Solution

fix

I believe this to be an AJAX issue - try switching feature_ajax off (in 3.0 it might be a conflict with the ShoutBox module. Will be fixed for 4.0 i hope!)
