Description

It is possible to watch for new articles here: tiki-user_watches.php

So why not add an "eye" in view articles and list articles?

Solution

This was done in r31767 on trunk, for Tiki 7.

Yes, this is still needed.

And also related to this ("group watch" feature for articles):

http://dev.tikiwiki.org/tiki-view_tracker_item.php?itemId=3100&trackerId=5

We need this for Barter networks.

Can we get this done during <http://tikiwiki.org/TikiFestBarcelona2> , if it's not very difficult to add?
