Description

Anonymous can view this gallery:

<http://www.marclaporte.com/gallery1>

And there is a list to the galleries:

Put I can't list the available galleries (available to anonymous)

<http://www.marclaporte.com/tiki-galleries.php>

There is a related problem with tiki-list_gallery.php where a :

```
if ($tiki_p_admin_galleries != 'y')
```

which prevents all individual image gallery permission checks

Would fixing this also cause the Image Gallery item in the side-menu to appear?
