★★★★★ (0) 

Description

Wiki "edit by section": Nice feature added, thanks heaps to those who made that possible! 

BTW, I found that it doesn't allow concurrent edition of different wiki sections of the same wiki page.

Tried on doc.tw.o on June 8th 2008, using Mittwoch and also Tikinewt.css (After clearing tiki cache), and it didn't work for me on any of both cases.

doc.tw.o page needs to be updated once fixed.

Edit by section is an "artificial" way to only edit part of the page. The underlying logic is the same and in reality, it's just one page.

Concurrent section edits would be very complicated because someone could be adding a section by putting a !! in a section.

I think it's too much work/risk to try to do this. It could be better to improve include page plugin

Xavier de Pedro 11 Jun 08 08:41 GMT-0000

I understand what you say Marc. However, other wiki engines implemented it, in an easy way for the end user (not like using split plugin, etc., but just click on the edit button, and engine allows concurrent editing). I suggest to keep it as RFE, then.

Wiki engine allowing concurrent section edit: nWiki for Moodle
