Description
When a new image gallery is created, since_last_visit_new shows as if there was a creation of both an image gal (which is true) and also a file gal with the same name (which is false -> Bug)

related to tracker #126
it was not fixed even in 1.9 ....
now fixed in 1.9 cvs don't know about 1.8 ...
ML: no need to worry about 1.8

Solution
the query was being made in the wrong table, listing img galleries twice
