### Description

Right now I am on 1.9.11, going to upgrade to RC4, is that possible for upgrading from RC4 to release 2.0?? Or may be I can wait the 2.0 for a while.

BTW, it said that the 2.0 will be released in the second week of August, but right now it became in the August... Don't worry, Thanks for your hard working, we are all look forward the 2.0 😊

### Solution

Yes, no problem by going to your site's tiki-install.php in your browser as for other upgrades (and doing it using the 1.9to2.0 upgrade).

You do NOT have to start from scratch. Just use the database upgrade from tiki-install.php  
Remember to backup before you upgrade.
