Description

I have an Image Gallerie  
[http://www.hmayer.net/tiki-browse\\_gallery.php?galleryId=357&offset=12](http://www.hmayer.net/tiki-browse_gallery.php?galleryId=357&offset=12) containing only Subgalleries - but this Gallery does not show the Scroll forward / backward links - I can only navigate by manually entering the offset at the url...  
It worked with Tiki 1.9.8 - but since the upgrade it does not work (I have made a few configuration changes - but is this changeable by configuration?
