Description
   Browsing Images in an Gallery - scroll forward jumps over one picture and opens the second next. Browsing Back an image works fine, just forward seems to act wrong.

   See
   http://www.hmayer.net/tiki-browse_image.php?galleryId=360&sort_mode=name_asc&imageId=10044&scalesize=800

   If i scroll forward it will open imageID=10046 - even while 10045 exists and is in line with the sort mode.

It is still broken in TikiWiki 2.2.

There is wrong incrementation in tiki-browse_image.php (in 2.2. it's on line 144).

```
$smarty->assign('nextimg', $listImgId[$offset+2]);
```

After simple fix it'll be working well

```
$smarty->assign('nextimg', $listImgId[$offset+1]);
```

Anybody from Tiki team able to fix it?

Cheers, pm
