Description

Removing an avatar results in an broken image link.

Reproduce:

- Hovering the mouse pointer on a user name reveals the user details.
- Create an avatar for that user.
- Hovering the mouse pointer on the user name now shows the user details including avatar.
- Delete the avatar.
- In place where the avatar was showing before, there's now a broken image in the user details.

Tiki site: <http://list.vic-fontaine.com/>

demo user/ password: smarty

Solution

Tested with phpmyadmin: After the avatar gets deleted, all avatar related fields in table users_users must be set to "NULL".

Importance
