Description
Using tiki 2.1., action log + contribution feature.
Admin cannot re-set the contributors to a wiki edition, for instance.
Admin can re-set the contribution type, but not change the co-authors, and this is needed (in educational scenarios, students select no mates by mistake, and then, there is no way for the admin to re-set the author or co-autors).

Solution
Allow an admin to edit the co-author information, at least from admin action log, as it can be done nowadays for type of contribution.
