We are running into this issue of "search result description duplication" on our server (TikiWiki 3.2, Windows Server 2003, apache 2.2.13, mysql 5.1.39, php 5.3.0, Multiwiki setup). Only one of our wikis (out of 4 on our multiwiki setup) is manifesting this error. It seems as though the search keywords are found correctly on the pages however the "page preview" (beneath the wiki page title and above the Last modified date). The preview text only occurs in one of wiki pages and not the others. The example below is from our medical wiki and the preview text (beginning "Will you be offering...") is correct for the first wiki page (H1N1 vaccine and Pregnancy and Breastfeeding) but not the others.

Found "pregnancy" in 14 pages

H1N1 vaccine and Pregnancy and Breastfeeding

Will you be offering a non-adjuvanted H1N1 vaccine for pregnant women? Why are pregnant women being offered non-adjuvanted vaccine? How many doses of the unadjuvanted vaccine will pregnant women need? By buying an unadjuvanted vaccine for p

....

Furthermore, if I turn OFF "Search-Admin > Parse the results" then the text displayed is NOT duplicated, but all in wiki syntax which the nurses do not care for 😊 Example:

H1N1 vaccine and Pregnancy and Breastfeeding

!Will you be offering a non-adjuvanted H1N1 vaccine for pregnant women? The Government of Canada

will be obtaining 1.8 million doses of non-adjuvanted pandemic vaccine for pregnant women. However, this vacci

Medications while Pregnant and Breastfeeding

!I am pregnant; should I take an antiviral to avoid the flu? Using antivirals to reduce the chance of getting the flu (also known as prophylaxis) is not recommended. Antivirals are best used for trea

Pregnancy

Supportive Links: Information on Pr

Last modification date: Saturday 07 of November, 2009 12:48:49 EST

Sequencing and Priority Groups for H1N1 vaccine

!How is the vaccine being made available to the public? H1N1 immunization clinics (with adjuvanted vaccine) started in Ontario during the week of October 26. However, as the vaccine will arrive in shipmen

Last modification date: Monday 09 of November, 2009 13:47:19 EST

.....

This happens for both "Database Search" and "Tiki Search". I have tried refreshing the search index in "Search-Admin" but that changed nothing. I could not find anything online about others reporting this problem other than this bug.
