Description

Hi there,

I would like to know if it is possible to force the tikiwiki login process.

I want the login page for the home page, in order to force the users to log in. I have to modify the tiki-index page ?Do you guys have any hint for doing that?

Any help will be much appreciated.

Luca

Just removed tiki_p_view permission from the Anonymous group.

Starting in 3.0, there will be an Intranet profile.
