Description

If the *Maximum number of records in listings* is reached when listing all the FAQs, it's still print Page: 1/1 and it's impossible to show the others faq

The only way to show the others faqs is to give for example `find=&offset=15&sort_mode=created_desc` directly to the tiki-list_faqs.php page.

This feature is working on 1.9.11
This bug was found on 2.2 release
