Description
When I click the Actions â†' Replace on tiki-list_file_gallery.php?galleryId=1 (used to be replacing the image file with another one), it does nothing...

link on Replace just points to tiki-list_file_gallery.php?galleryId=1#

Workaround
I found the following - do not understand why it works ...

Edit the thenews.css and replace the in the input style definitin the margin fomr "0.2em" to "1px"

Attached a patch:

---

thenews.css (Revision 18622) +++ thenews.css (Arbeitskopie)
@@ -112,7 +112,7 @@
textarea,
option,
select {
- margin: 0.2em;

+ margin: 1px;
vertical-align: middle;
}

Without the patch the file dialog does not come up. With the change to 1px the dialog comes up. I use a firefox 3.0.10
