...you try on a clean install of Tiki?

Let's try to separate migration issues from functionality

Xavi (as xavidp - admin) 10 Sep 09 11:10 GMT-0000

Did you upgrade on the same database, or you exported the 1.9.x database and re-imported to a new database for 2.x?

(the issue might be some problem at the exporting and re-importing the mysql db in that case)

Moreover, Could you try the same upgrading from tiki 2 to tiki 3?

Please report back
