Thanks for the patch! It worked for me. Minor edit: only admins should be able to see the "Save" button, according to the documentation. So I just moved the admin check down to where the "Save" button is displayed.

New diff:

```
+++ b/templates/wiki_edit_actions.tpl
@@ -1,3 +1,4 @@
+{if $page|lower neq 'sandbox' or $tiki_p_admin eq 'y'}
```

The diff did not show up in the previous comment. It is attached as `sandbox-patch.txt`. Tested on 2.4.

lbmaian 15 May 09 07:13 GMT-0000

Your attached patch is backwards - your diffing the old version against the new version, instead of vice versa.

Nelson Ko 19 May 09 10:10 GMT-0000

I have attached another patch which I think works better...

lbmaian 19 May 09 21:00 GMT-0000

Er...the patch just attached today is exactly the same as the patch attached May 13th. If you mean you changed the patch in bug solution box: wouldn't that show the Preview button twice for admins?

lbmaian 26 May 09 18:27 GMT-0000

Having only admins see the "Save" button isn't a good idea since there are known discrepancies between page previews and the actual page itself.

Jill Elaine 10 Jun 09 14:27 GMT-0000

Non-admins need PREVIEW and FINISH/CANCEL buttons on SandBox. All agree SandBox needs PREVIEW button. Without FINISH/CANCEL button, non-admin user must navigate away from SandBox to stop the edit and receives nonsensical alert about 'losing changes'.

So let's change the code on templates/wiki_edit_actions.tpl for this. I appreciate any comments (and hope this code pastes well).

```
{if $page|lower neq 'sandbox' or $tiki_p_admin eq 'y'}  
{if $translation_mode eq 'y'}
```

```
{else}  
{if $tiki_p_minor eq 'y' and $page|lower ne 'sandbox' and $prefs.wiki_edit_minor neq 'n'}  
  
{/if}
```

```
{if $prefs.feature_ajax eq 'y' && $prefs.feature_wiki_save_draft eq 'y'}  
  
{/if}

```

```
{if $page|lower ne 'sandbox'}

Instead I have attached a revised version of wiki_edit_actions.tpl
