Description

Hello,

Recently upgraded to 3.0..

Thought I'd turn on the "Discuss pages on forums." option.. Created a forum for the purpose.. Went to the Wiki admin page and selected the option.. Picked the forum from the popup that appeared.. Pressed "Change preferences"..

No change.

Tried several times in different ways on different browsers.

No change.

How can I enable this option?

Thanks in advance,

Karl

Solution

Yes, it's broken in 3.0.

I did a fix on the svn trunk in r19383. I will backport this fix to our "proposed" branch in order to give it available for future (an soon) 3.1.

Workaround

You can check the fix and apply it by yourself if possible.
