## Description
Even though logged in, clicking on
http://dev.tikiwiki.org/tiki-view_tracker_item.php?itemId=2538&trackerId=5&show=view (which
came up as a result of a bug search) results in the user being told "Error - Permission denied"

This should probably not be possible.

## Solution
I guess there might be a rights problem?

Are you able to reproduce this problem? With the tobi_h user?

Hi all,

I just retried to view the bug mentioned here, and now it works, which is why I marked this bug "closed". Greets, tobi
