Description
When the same registered user clicks on a reply button (the only thing what he can do then), the link will be like this:

http://www.writingcenter4.info/forumId=22&comments_parentId=20&%3Bthread_sort_mode=commentDate_desc&post_reply=1&comments_threshold=0&comments_reply_threadId=27&comments_offset=0&thread_sort_mode=commentDate_desc&comments_per_page=50&comments_grandParentId=20&thread_style=commentStyle_threaded#form

But what happens is:
404 Error

Solution
Revision 20330. lib/smarty_tiki/function.query.php
The fix is committed in proposed, should be shipped in Tiki 3.2.

Comments

stefon 25 Jul 09 18:42 GMT-0000

maybe it has something to do with threading?

Chealer 25 Jul 09 18:44 GMT-0000

I can't reproduce this. Do you mean that the user clicking on reply needs to be the same user as the one who opened the topic?

stefon 25 Jul 09 18:50 GMT-0000

The problem seems to lie in the constructing of the url.

The wrong url looks like
http://127.0.0.1/tikigras/tikiwiki-3.1/comments_parentId=4 ....
which shows that php target is missing. if you correct the url manually to something like this
http://127.0.0.1/tikigras/tikiwiki-3.1/tiki-view_forum_thread.php?comments_parentId=4 ...
you can reply in the forum...

ill have a look at the file. maybe i can propose a fix.

Create a new forum...
create a new topic in the forum...
reply to the new topic
try to reply to the second entry...
in this case 404 hits me

this happens in threaded but also in flat view

stefon 25 Jul 09 19:32 GMT-0000

The URL is constructed in the
comment-footer.tpl template file on line 69 (in tikiwiki 3.1).
{button
href="?post_reply=1&comments_threshold=`$comments_threshold`&comments_reply_threadId=`$com
ment.threadId`&comments_offset=`$comments_offset`&thread_sort_mode=`$thread_sort_mode`&com
ments_per_page=`$comments_per_page`&comments_grandParentId=`$comment.parentId`&comments
_parentId=`$comment.parentId`&thread_style=`$thread_style`#form"

but im not really sure what the problem is with this..

sylvie greverend 26 Jul 09 12:56 GMT-0000

Commit 20332 is supposed to fix that - need to be backported
