As per Tiki23 we have permissions as follow:

- Can admin polls (tiki\_p\_admin\_polls)
- Can view poll user choices (tiki\_p\_view\_poll\_choices)
- Can vote in polls (tiki\_p\_vote\_poll)
- Can view poll voters (tiki\_p\_view\_poll\_voters)
- Can view poll results (tiki\_p\_view\_poll\_results)

The permission are working fine and it is possible to prevent Anonymous from seeing anything. However this is feature based (all polls or none).

Would it be a new feature request to do ?
