Description

Homework feature has been kicked out - but the permissions are still in there, when looking at

Admin -> Groups

Solution

Remove them

I think, that was done...

It's not changing the structure of DB.
What should be done, remove from db/tiki.sql ?
The tables ? The perms ?
Should we also clean by upgrade ?

amette 08 Jul 05 16:21 GMT-0000

Removing it from db/tiki.sql is a must, I'd say.

Problem are people, who were running the pre-1.9-release CVS versions and eventually used the feature. Dropping their tables by the update script doesn't sound like a nice action....
Perhaps make a wiki-page for those people with a "Cleanup"-Script attached? I think packaging it with the tarball creates more confusion than advantages.
