Completely agree! Seems like it's being forgotten, but makes difficult to chase down real orphaned files from those that are just translation of other files.

Hi tehonu,

This wishlist was open for Tiki 1.9 a very very long time ago (more than 10 years) !!! 😊
I'm having the feeling it has been corrected.

Thank you to help by testing and reviewing this issue with Tiki 15 and then update this ticket ?

I tried to evaluate the task using : https://next.tiki.org/tiki-orphan_pages.php and on one of my Tiki (that uses 3 languages and translation).

It doesn't seem to display me all translated pages but a few that seem to me orphans (on purpose).

Please retest and add more information.
