Completely agree! Seems like it's being forgotten, but makes difficult to chase down real orphaned files from thos that are just translation of other files.

Hi tehonu,

This wishlist was openfor Tiki 1.9 a very very long time ago (more than 10 years) !!! 😊
I'm have the feeling it has been corrected.

Thank you to help by testing and reviewing this issue with Tiki 15 and then update this ticket ?

I tried to evaluate the task using : https://next.tiki.org/tiki-orphan_pages.php and on one of my Tiki (that uses 3 languages and translation).

It doesn't seems to display me all translated page but a few that seems to me orphans (on purpose).

Please retest and add more information.
