Description

As the admin I can't add permissions to Registered users or a new user group. In 3.1, I was getting errors when logged in as Registered user that I couldn't upload even though that was available to me (there's an open bug report about this). I don't get that error now and I can upload as a Registered user, but I cannot then go back and see it - no Galleries are visible to me. I can see them as an admin, though, but that is not useful since users need to view galleries also and aren't able to.

Also, I got these errors when I upgraded to 3.2:
