### Description

I did report this bug days ago. I edited to close it, selecting as closed many of the fields to do so in the tracker5 but I forgot to set as "closed" the first and traditional drop down:

[http://dev.tikiwiki.org/tiki-view\\_tracker\\_item.php?trackerId=5&itemId=2856](http://dev.tikiwiki.org/tiki-view_tracker_item.php?trackerId=5&itemId=2856)

After I saved, I can't edit my bug tracker any more, not even to set as closed that bug report. To me, too many fields are related to closing the bug, only one should be chosen for that. And if more than one, much better to place all of them close ones to the others.

UPDATE: Outdated, so closing.
