Description
   To reproduce:

   - As a user with non admin rights insert a tracker item to dev.tw.o/tracker5
   - edit it again, and change something (add some text to a text areas, etc.) And save
   - you are not able to edit that item any more because the "Submitted by" field has lost the record.
   - edit that item as a user with admin rights, adn manually provide again the username of the poster.
   - the poster can edit it one more time. But after that, he loses the ability again.

   ...

   Example:
   http://dev.tikiwiki.org/tiki-view_tracker_item.php?trackerId=5&itemId=2885
