### Rating

★ ★ ★ ★ ★ (0) ?

### Description

I've seen the gorgeous work done with jquery to allow re-sorting data in tables at wiki pages when using the PluginFancyTable

That would be also awesome if enabled in the PluginTrackerList...

This way, we would even allow the conflict between cache and sorting for anons... (see this other report bug2898 )

### Solution

Implemented in Tiki 12.0+

### Importance

4

### Priority

20

### Demonstrate Bug (Tiki 19+)
