Description

db error in group inclusion (tiki 3.3)
Installed barebones profile on tiki 3.3, then applied Collaborative Community on top, which created the group SubAdmins.
Then I attempted to rename group SubAdmins (which includes Editors) to Editors_Web, and I got this error:

Context: File tiki-admingroups.php Url tiki-admingroups.php Query: insert into
`tiki\_group\_inclusion`(` groupName`,` includeGroup`) values(?,?) Values: 0 Editors_Web 1 Editors
Message: Built query was probably: insert into
`tiki\_group\_inclusion`(` groupName`,` includeGroup`) values('Editors_Web','Editors')
