Description

I'm sure that nobody is really trying this, but the doc claims that an upgrade from 1.9 to 4.1 should work. When running the DB upgrade, I've hit four errors:

PHP Fatal error: Call to a member function fetchRow() on a non-object
in /var/www/tiki/installer/schema/20090923_mod_change_category_defaults_tiki.php on line 11,
referer: http://dc-dev/spwiki/tiki-install.php

PHP Fatal error: Call to a member function fetchRow() on a non-object
in /var/www/tiki/installer/schema/20091004_last_tracker_items_modules_merge_tiki.php on line 11,
referer: http://dc-dev/spwiki/tiki-install.php

PHP Fatal error: Call to a member function fetchRow() on a non-object
in /var/www/tiki/installer/schema/20091019_article_by_rating_modules_merge_tiki.php on line 11,
referer: http://dc-dev/spwiki/tiki-install.php

Call to a member function fetchRow() on a non-object
in /var/www/tiki/installer/schema/20091019_last_articles_modules_merge_tiki.php on line 11,
referer: http://dc-dev/spwiki/tiki
-install.php

Oops, didn't have alter privs on DB. Not sure if that's why this failed.

Solution

The solution (or at least workaround) is to check if the query returned anything. I have no idea if these functions should return any rows, but they're not with my DB. Here's a hacky fix for the first

one. I tried while (\$result && \$result->fetchRow()), but I guess php doesn't do partial eval?? (I'm more of a perl guy...)

```
patch for first problem

Which PHP version did you use?
