Deleting a question under a certain quiz results in an error

There's a bug in a feature Quiz. To reproduce it perform the following steps:

1. Create a quiz
2. Create two question inside it
3. Then delete a question
4. Click on a “Click here to confirm your action” button to approve your choice

There goes "Internal Server Error"

If to look at this quiz then, the question we've tried to delete has been really purged so far.
