### Description

When editing a new File Gallery or modifying an existing Gallery, no Parent-Gallery Selection box is shown. Thus you can neither create new File Galleries nor move existing File Galleries to other parents. (See )

### Solution

edit template/edit\_file\_gallery.tpl. remove the "! isset(\$smarty.request.parentId) and" in line 43

because the parent gallery selection box should be displayed for every gallery but the root gallery. not only if the request parameter "parentId" is not set (for editing an existing gallery) but even if the request parameter "parentId" is set (in case of a new gallery).

seems to work with 6.3
