Rating

Description
Tiki login page wrongfully increments tiki_pageviews hit count

Solution

Replace this loop

```php
if ($feature_stats == 'y') {
    if (isset($user)) {
        if ($count_admin_pvs == 'y' || $user != 'admin') {
            if (!isset($section) || ($section != 'chat' && $section != 'livesupport')) {
                $tikilib->add_pageview();
            }
        }
    }
}
```
With this one

```php
if ($feature_stats == 'y') {
    if (isset($user)) { # Bug fix, otherwise next line counts hits for login page
        if ($count_admin_pvs == 'y' || $user != 'admin') {
            if (!isset($section) or ($section != 'chat' and $section != 'livesupport')) {
                $tikilib->add_pageview();
            }
        }
    }
}
```
